

Do you want a sustainable, healthy and and fair food system in Australia?

So do we – and we do it by connecting passionate people like you to build tangible change. In fact, we are doing it right through our groundbreaking projects, Cardinia Food Circles and the Melbourne Food Hub.

Cardinia Food Circles

cardiniafoodmovement.org

Creating a healthy, delicious, sustainable and fair food system for all Shire residents.

Melbourne Food Hub

melbournefoodhub.org.au

Creating a self-sustaining and replicable model where community can meet, learn about, grow, make, eat and source fresh local produce.

We can help you make the change you want to see in our world by engaging your local council, grassroots organisations and other institutions who share the same vision for food system transformation. Join us and be part of a growing network of passionate change-makers.

We are very grateful to our major funders and partners.

Support budding local and national networks tackling wicked food system challenges:

- Cardinia Food Network
- Regenerative Farmers Network (WA)
- Edible Adelaide/SA Urban Food Network
- Urban Agriculture Network (National)

Conduct innovative research and consultancies that help shape healthy food systems policy:

- Artisanal agriculture survey with Agriculture Victoria
- Food Hub feasibility studies (Wyndham, Bendigo, Wangaratta, Cardinia)
- Local food economy pilot study (Bendigo)

Drive thought leadership through dynamic events:

- Urban Agriculture Forum
- Food for Thought Festival
- National Sustainable Communities Summit
- New Economy Network Australia Conference

By connecting you, we are able to map the movement with our national food systems directory.

Get your initiative on the map.
